Objective

This is a simple challenge to help you practice printing to `stdout`. You may also want to complete [Solve Me First](#) in C++ before attempting this challenge.

We're starting out by printing the most famous computing phrase of all time! In the editor below, use either `printf` or `cout` to print the string **Hello, World!** to `stdout`.

Input Format

You do not need to read any input in this challenge.

Output Format

Print **Hello, World!** to `stdout`.

Sample Output

```
Hello, World!
```

Easy
